Motion to Continue the Suspension of the Appeal

On January 25, 2008, the Trademark Trial and Appeal Board issued an order granting Applicant's motion to suspend its requirement to file an Appeal Brief for a period of six months in order to determine whether the owner of the cited registration, PLASTIC SURGEON IN A BOTTLE (U.S. Reg. No. 2,533,879), would file the necessary Declaration of Use in advance of the July 29, 2008 close of the grace period for the registration owner to file a Declaration of Use. Applicant has been diligently monitoring the status of the cited registration, and notes that the owner of the cited registration has still not filed a Declaration of Use to maintain the mark. Accordingly, Applicant respectfully requests that the Trademark Trial and Appeal Board maintain the suspension of the subject Appeal for an additional six months in order to allow the cited registration to expire. Applicant respectfully requests that the Board contact the undersigned with any questions or concerns regarding this matter.
